Dear Miss Earle:

I am enclosing a letter which arrived for you a day or so ago, as well as mine and Mr. Wood's which were sent to the steamer and returned as you will note.

In addition to these there were communications from Lee Higginson, evidently confirming recent transactions and one from the Seaboard National Bank, such as have been received by you from time to time and presumably connected with the first of the month. This last I understand is to be left unopened until your return. I am putting the others into the mail as promptly as may be so that they will reach you without undue delay.

Very sincerely

SPM C
